

ADDENDUM NUMBER ONE

**RFP 10-1536
DEVELOPMENT CENTER FLEXIBLE SERVICES CONTRACTS**

This solicitation is hereby clarified as follows:

Multidisciplinary Teams – It is Metro's intent to identify a pool of qualified firms to assist Metro and its partners in implementing upcoming projects. In instances where a multidisciplinary team is desirable, Metro may initiate work orders with multiple firms from this pool to build a team with all of the desired skill sets.

As project circumstances warrant, Metro may also initiate a work order with one firm from within its flexible services pool to implement a specific project, and work with that firm to identify other desired sub-consultants needed to round out the team. Therefore, it is not necessary for proposers to team with other firms in order to address all of the potential scope of work elements listed within each service category, but such an approach is allowable.

All other terms and conditions of the original solicitation remain unchanged.

Issued October 14, 2009
