

Addendum No. 2

RFP No. 1516

Waste Prevention and Resource Conservation Assembly

Questions from potential proposers are shown below followed by answers in **bold** from Metro.

The RFP says "professional" performers. If we put in a proposal, we would want our students involved in all aspects of the work. If this is a problem, please let me know.

In the context of the RFP the term "professional" performers means the proposer has the organizational capacity and ability to develop, rehearse, schedule and perform (or cause to be performed) the assembly show over the course of the multiyear project.
