

Active Transportation Plan

Regional Pedestrian Network Principal Pedestrian Corridors and Districts

Pedestrian Network Concept

Planned RTP Pedestrian Network (current)

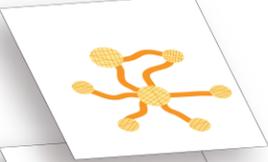

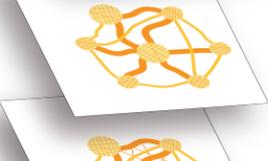

- RTP off-street paths 
- RTP on-street corridors 
- RTP pedestrian districts 

Potential corridors

- Off-street paths 
- Frequent transit corridors 
- Bicycle parkway concepts 

A connected network of on and off-street corridors anchored by pedestrian districts that provide access to transit and key destinations in the region. Pedestrian districts are the region's urban centers where pedestrian activity is highest. Principal on-street corridors mirror frequent transit routes. Multi-use and pedestrian only trails provide off-street corridors, connecting to the on-street network, transit and nature. All regional bicycle parkways are also principal regional pedestrian corridors. The principal pedestrian network provides the spine for regional pedestrian corridors and local pedestrian corridors to make a complete regional pedestrian network.

Regional Pedestrian Network

- Principle pedestrian corridors and districts 
- Community pedestrian corridors 
- Local pedestrian corridors
