

# Are some outcomes more important than others?

Use 3 dots to share what you think is most important

## Access and mobility

More and better sidewalks and bikeways, reduced time in traffic or at lights

## Better transit

Quicker trips, more local service and easier walk to a MAX or BRT station

## Prosperity

More jobs, development and housing

## Healthy communities

Access to parks, trails and natural areas, more walking and biking opportunities

## Equity

Fair distribution of benefits and burdens

## Natural environment

Protect and enhance streams, habitat and trees

## Feasibility

Cost, funding potential and support
