Please answer the following questions if you have additional information on the property (providing this information is optional, however, any information you have would be helpful)

- What information do you know about the history of the property? Please describe any known past use of the property and what you know or suspect about any potential petroleum (or other?) contamination.

- Who were previous owners and do you have contact information for them?

- Have there been any previous environmental site assessments or cleanup actions taken on the property? If yes, please describe and give date

continue on reverse side

- If contamination issues can be addressed, what do you hope to do with the property?

- What concerns or practical issues have kept you from performing or completing environmental assessment or cleanup actions on the property? For example, is the cost of environmental assessment and cleanup more than you can afford?

- What is your potential interest in further actions? Check all that apply

Phase I Assessment (Review of records for site history and possible contamination)

Phase II Assessment (Sampling and testing of site soils and groundwater)

Cleanup (Actions required to clean up contamination to protect environment)

Redevelopment (Actions, after cleanup, to improve site for new business)

Technical assistance (Guidance to assist with all of the above issues)
