

Active Transportation Plan

Regional Destinations

Shows overlap of regional destinations with regional pedestrian, bicycle and frequent transit routes, city and town centers and station communities. Regional destinations are major attractors and trip generators that serve many people and include: large employers, colleges and high schools, libraries, regional shopping centers, airports, hospitals and major medical centers, regional parks, major social service sites and bus stops with high volumes of riders.

¹ High schools, colleges and universities. ² Employment sites with 300 or more employees. ³ High ridership bus stop locations identified by TriMet. ⁴ Tri Met LIFT paratransit service.
