Willamette River Greenway Target Area

Goal

- Protect fish and wildlife habitat, water quality, scenic resources and improve public access to the river along the greenway from Wilsonville to the Multnomah Channel.

Objectives

Tier I Objectives

- Close key trail gaps in Portland, including those in North and Southeast Portland.
- Secure remaining unique and rare habitats. These include Multnomah Channel, the large forested area west of the Sellwood Bridge and lands near Elk Rock Island.

Partnership Objectives

- Work with existing groups (including the State of Oregon, the City of Portland, Meyer Memorial Trust, The Nature Conservancy, Western Rivers Conservancy, and others) to leverage regional bond funds to the maximum extent possible to achieve Tier I priorities and to preserve and restore the Willamette River.
- Support efforts by other public agencies to restore habitat and create regional trails in the Willamette River.
